1. Headings

How to give headings in Markdown file

Hello World

Secod Heading

Third Heading

2. Block of words

thsi is a normal text in markdown

To add the sepcial text add > sign

> This is special text always use > sign before the text

> Second line

3. break line of code

This is the best python course where i have learned alot and .

I will recommend this to everyone

4. Combine two things

> # The most important thing

5. Face of Text

Bold Text

italic

Bold & Italic

Or you can use symbol _ (underscore)

Bold With Underscore
italic with single underscore
Bold & Italic with Underscore using 3 underscore

6. Add Bullet Points

- Day 1
  - day Sub heading
- Day 2
- Day 3

> Numbering of the list (Use 1. then write)

1. Day 1
2. Day 2
   1. Day 2.1
   2. Day 2.2
      1. Dayes
         1. more

An other way is **using * or +**

- days

  - day1
    - day

- day2

7. Line Or page breaks

> ##you can use 3 Dashed (-) or 3-underscore (_) or 3 estaric *

This is the line no 1

this is the line no 2

Now the thrid one is

Final one is now here.

8. Link & Hyperlink

[google Link] https://www.google.com

This is the google link.. To search on the google

> To check the complete course clikc [here]:youtube

9. Images & figures with links

To join the course please scane the QR Code:

> This is the local directory Image..Syntex ==> ! [QR] (qr.png)

Online image

10. Adding code Or code blokc

To Print a string `Print("Hello World")`

```
print("Hello Programmmers")
```

```
x=12
y=34
print("The sum of x and y is ",x+y)
```

This will render as:

> This code shows the code color according to the C# Language

```
x = 12
y = 34
console.writeLine("The sum of {0} and {1} is", x + y)
```

> This code shows the code color according to the Python Language

```python
x = 12
y = 34
print("The sum of x and y is", x + y)
```

11. Adding tables

Customer Name	Species	Petal_length	Sepal_length
Iris-setosa	Iris-setosa	4.3	3.0
Iris-setosa	Iris-setosa	4.4	3.2
Iris-setosa	Iris-setosa	5.8	4.9

> *This is how you can add table*

Adding Contnet

> Systax [ ]( ) => 1:Any Text, 2 Heading, remember add - which is representing the space

Goto Heading 2
Goto Heading 4
Goto Heading 7
Goto Heading 5
